SanDisk® iNAND® 7250 Industrial Embedded Flash Drives
Proven Reliability and Endurance for Embedded Platforms

SanDisk iNAND 7250 Industrial embedded flash devices provide high reliability and endurance for industrial applications across a wide range of operational requirements. Designed and tested to withstand demanding environmental conditions, this industrial-grade flash drive features advanced flash memory management firmware to provide enhanced power immunity, ECC, wear leveling, and bad block management. Data intensive applications can rely on iNAND 7250 Industrial products to capture every critical moment, log each event, and to ensure quality-of-service to end-users.

The Smart Partitioning feature in the iNAND 7250 Industrial flash drives allows Boot partitions, RPMB, multiple General Purpose Partitions, User Data Area and Enhanced User Data Area, providing OEMs the flexibility to choose different attributes on a single device depending on storage requirements.

### Key Features and Benefits

#### Product Highlights
- Operating Temp Range: -40°C to 85°C on Industrial Extended-Temperature SKUs; -25°C to 85°C on Commercial and Industrial SKUs
- Broad portfolio: 8GB to 64GB
- Extended product life cycle for industrial grade
- Advanced controller built for endurance and reliability
- High endurance: up to 3K P/E cycles in MLC
- Smart Partitioning, Advanced Health Report and Manual Refresh (Industrial Grade)
- Enhanced User Data Area (EUDA) (Commercial Grade)
- Operating voltage: 2.7V to 3.6V

#### Business Benefits
- Drives faster time to market with quick system integration
- Enables real-time analytics at the edge
- Enables cloud augmentation, reduces network traffic
- Improves connected user experience
- Provides reliable local storage, as primary or backup
- Optimizes system performance

#### Serving Industrial Applications
- Surveillance
- Drones
- IoT Gateways
- SOM
- Transportation
- Industrial PCs
- Factory Automation
- Embedded PCs
- Networking
- Medical
